LITTLE GIANT

ADVANCED SAFETY!

DIGITAL
INCUBATORS

THE NEXT GENERATION OF INCUBATOR TECHNOLOGY

Performance and electronics of high-end, expensive incubators at hobbyist price points

- Digital control board for easy, one-touch temperature setting.
  Holds set temperature within ONE degree!
- **State-of-the-Art Safety Features**
  - Redesigned plastic heater is cooler to the touch than traditional metal heating elements that can reach a burning 265 degrees
  - Simple plug-and-play fan design featured on the 10300 and 11300 is easy and safe to setup, requiring no electrical knowledge
  - Mesh plastic screen has no sharp edges for both human and chick safety
- Built-in digital hygrometer measures humidity
- Predictive temperature control maintains accurate and consistent temperatures
- Accessible water channels reduce humidity loss to improve hatch rates
- LCD display with LED light shows accurate readings instantly
- 41 egg capacity when used with Little Giant® 6300 Egg Turner
- Ideal for educational purposes

Compare to competitive units:

✓ Digital thermometer significantly more accurate than analog options (within 1° F)
✓ Plastic vs. Metal heating element
✓ Includes digital hygrometer
✓ Made in the USA
✓ Dishwasher-safe plastic screen - easy to clean

Digital readout of temperature and humidity levels
